The Trade Desk Reports Second Quarter Financial Results

LOS ANGELES--(BUSINESS WIRE)--August 6, 2020--The Trade Desk, Inc. (NASDAQ: TTD), a global technology company that empowers buyers of advertising, today announced financial results for its second quarter ended June 30, 2020.

“While the advertising industry hit the pause button early in the second quarter due to uncertainty around the COVID-19 pandemic, we saw substantial improvement in ad spend as the quarter progressed. Indeed, the month of June ended strongly with ad spend growth turning positive on a year-over-year basis. This improvement comes as marketers recognize the role that data-driven advertising plays in driving business growth as markets start to reopen,” said Jeff Green, Co-Founder and CEO, The Trade Desk. “In this environment, advertisers value the agility and flexibility that our platform provides, along with the ability to measure the ROI of every advertising dollar. Nowhere is this more apparent than television, where the accelerated consumer shift to streaming services and the greater availability of premium inventory, allows advertisers to apply data to their massive TV campaigns for the first time.”

Impact of COVID-19 on our Outlook:

Our business has been impacted by the COVID-19 pandemic that has significantly impacted advertiser demand. Like many companies that are ad-funded, we are facing a period of higher uncertainty in our business outlook. We expect our business performance could be impacted by issues beyond our control, such as changing economic conditions or shelter-in-place orders that may or may not occur. Assuming that the economy continues to recover and we do not have any major COVID-19 related setbacks that may cause economic conditions to deteriorate, we estimate revenue growth in Q3 to increase 8 to 10 percent on a year-over-year basis. Under this assumption, we estimate adjusted EBITDA to be at least \$30 million in Q3.

Third Quarter 2020 outlook summary:

- Revenue range between \$177 million and \$181 million
- Adjusted EBITDA of at least \$30 million

Use of Non-GAAP Financial Information

Included within this press release are the non-GAAP financial measures of Adjusted EBITDA, Non-GAAP net income and Non-GAAP diluted EPS that supplement the Consolidated Statements of Income of The Trade Desk, Inc. (the Company) prepared under generally accepted accounting principles (GAAP). Adjusted EBITDA is earnings before depreciation and amortization, stock-based compensation, interest expense (income), net, credit loss expense on available-for-sale securities and provision for (benefit from) income taxes. Non-GAAP net income excludes charges and the related income tax effects for stock-based compensation. Tax rates on the tax-deductible portions of the stock-based compensation expense approximating 30% have been used in the computation of non-GAAP net income and non-GAAP diluted EPS. Reconciliations of GAAP to non-GAAP amounts for the periods presented herein are provided in schedules accompanying this release and should be considered together with the Consolidated Statements of Income. These non-GAAP measures are not meant as a substitute for GAAP, but are included solely for informational and comparative purposes. The Company's management believes that this information can assist investors in evaluating the Company's operational trends, financial performance, and cash generating capacity. Management believes these non-GAAP measures allow investors to evaluate the Company's financial performance using some of the same measures as management. However, the non-GAAP financial measures should not be regarded as a replacement for or superior to corresponding, similarly captioned, GAAP measures and may be different from non-GAAP financial measures used by other companies.

Forward-Looking Statements

This document contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to expectations concerning matters that (a) are not historical facts, (b) predict or forecast future events or results, or (c) embody assumptions that may prove to have been inaccurate, including statements relating to the industry and market trends, and the Company’s financial targets, such as revenue and Adjusted EBITDA. When words such as “believe,” “expect,” “anticipate,” “will”, “outlook” or similar expressions are used, the Company is making forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it cannot give readers any assurance that such expectations will prove correct. These forward-looking statements involve risks, uncertainties and assumptions, including those related to the Company’s relatively limited operating history and the impact of COVID-19 on the Company and its customers and partners, which makes it difficult to evaluate the Company’s business and prospects, the market for programmatic advertising developing slower or differently than the Company’s expectations, the demands and expectations of clients and the ability to attract and retain clients. The actual results may differ materially from those anticipated in the forward-looking statements as a result of numerous factors, many of which are beyond the control of the Company. These are disclosed in the Company’s reports filed from time to time with the Securities and Exchange Commission, including its most recent Form 10-K and any subsequent filings on Forms 10-Q or 8-K, available at www.sec.gov. Readers are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this press release. The Company does not intend to update any forward-looking statement contained in this press release to reflect events or circumstances arising after the date hereof.
