## The Trade Desk Reports Third Quarter Financial Results

LOS ANGELES--(BUSINESS WIRE)--November 8, 2021--The Trade Desk, Inc. (NASDAQ: TTD), a global technology company that empowers buyers of advertising, today announced financial results for its third quarter ended September 30, 2021.

“We again delivered outstanding performance in the third quarter. Revenue growth of 39% significantly outpaced worldwide programmatic advertising growth. The world’s leading brands and agencies are increasingly using our platform to apply data-driven strategies to drive precision and value across their campaigns,” said Jeff Green, founder and CEO of The Trade Desk. “More data-driven choices by advertisers led to record third quarter revenue of \$301.1 million and adjusted EBITDA of \$122.7 million. With the launch of Solimar, we are working with the industry to pioneer even greater data-driven precision, whether it’s the application of shopper data in a measurement marketplace, surfacing the right data for every advertising impression, or new approaches to identity that help advertisers make the most of their own valuable data. As a result, we’re seeing growth across all channels, and none more so than Connected TV, as viewers shift to new digital, streaming services and advertisers apply data to TV ad campaigns for the first time.”

### **Third Quarter and Recent Business Highlights Include:**

- **Strong Customer Retention:** Customer retention remained over 95% during the quarter, as it has for the previous 7 years
  - **Launched our new trading platform Solimar on July 7**  
Features include:
    - Upgraded UI to help set better campaign goals
    - The platform's AI engine Koa™ then uses these goals as a guide to optimize media spend, helping the advertisers to achieve goals faster and more efficiently than ever before
    - Enables onboarding and activating first-party data easier than ever
    - Growing an audience without sacrificing control over consumer experience by utilizing an interoperable Unified ID 2.0 with some of the biggest names in identity
    - The most powerful measurement marketplace in the market today providing marketers the ability to measure the impact of campaigns across every channel and optimize in real time
  - **Continued Industry-Wide Collaboration and Support for Unified ID 2.0:** The Trade Desk is building support for Unified ID 2.0 (UID2), a new industry-wide approach to identity that preserves the value of relevant advertising, while putting user control and privacy at the forefront. Recent pledges of support, integration and news associated with UID2 include:
    - Global provider of marketing solutions, Interpublic Group
    - Global media, marketing and corporate communications holding company, Omnicom Group
    - TrueData, a data platform specializing in cookieless identity resolution, first party data onboarding, and audience marketing
    - Netwise, a leading provider of multi-channel B2B marketing data
    - Snowflake, an enabler for organizations to mobilize their data with Snowflake's Data Cloud
    - iCook, a leading online cooking information platform in Taiwan
    - Cookware maker, Made In, saw a 20% improvement in cost per action (CPA) for its campaigns and users converted faster when using UID 2.0 than without. Users converted 22% more when compared to 3P cookies and converted 33% faster.
  - **Industry Recognition:** The Trade Desk debuted at #6 on FORTUNE's list of the 100 Fastest Growing Companies for 2021. The Trade Desk was named one of the Top 100 Software Companies of 2021 by The Software Report and won Adweek Readers' Choice: Best of Tech awards for both Demand Side Platform and Innovator of the Year categories. Additionally, The Trade Desk was included in this year's Forbes Global 2000 list. And for the fifth consecutive year, The Trade Desk was selected as both a FORTUNE 2021 Best Medium Workplace and a Best Workplace in New York by Great Places to Work.

## **Financial Guidance:**

Our business has been impacted by the COVID-19 pandemic that has significantly impacted advertiser demand. Like many companies that are ad-funded, we are facing a period of higher uncertainty in our business outlook. We expect our business performance could be impacted by issues beyond our control, such as changing economic conditions or additional shelter-in-place orders that may or may not occur. Assuming that the economy continues to recover and we do not have any major COVID-19 related setbacks that may cause economic conditions to deteriorate, we estimate the following:

Fourth Quarter 2021 outlook summary:

- Revenue at least \$388 million
- Adjusted EBITDA approximately \$175 million

We have not provided an outlook for GAAP Net income or reconciliation of adjusted EBITDA guidance to net income, the closest corresponding U.S. GAAP measure, because net income outlook is not available without unreasonable efforts on a forward-looking basis due to the variability and complexity with respect to the charges excluded from these non-GAAP measures; in particular, the measures and effects of our stock-based compensation expense that are directly impacted by unpredictable fluctuations in our share price. We expect the variability of the above charges could have a significant and potentially unpredictable impact on our future U.S. GAAP financial results.

## **Use of Non-GAAP Financial Information**

Included within this press release are the non-GAAP financial measures of Adjusted EBITDA, Non-GAAP net income and Non-GAAP diluted EPS that supplement the Consolidated Statements of Income of The Trade Desk, Inc. (the Company) prepared under generally accepted accounting principles (GAAP). Adjusted EBITDA is earnings before depreciation and amortization, stock-based compensation, interest expense (income), net, and provision for (benefit from) income taxes. Non-GAAP net income excludes charges and the related income tax effects for stock-based compensation. Tax rates on the tax-deductible portions of the stock-based compensation expense approximating 25% to 30% have been used in the computation of non-GAAP net income and non-GAAP diluted EPS. Reconciliations of GAAP to non-GAAP amounts for the periods presented herein are provided in schedules accompanying this release and should be considered together with the Consolidated Statements of Income. These non-GAAP measures are not meant as a substitute for GAAP, but are included solely for informational and comparative purposes. The Company's management believes that this information can assist investors in evaluating the Company's operational trends, financial performance, and cash generating capacity. Management believes these non-GAAP measures allow investors to evaluate the Company's financial performance using some of the same measures as management. However, the non-GAAP financial measures should not be regarded as a replacement for or superior to corresponding, similarly captioned, GAAP measures and may be different from non-GAAP financial measures used by other companies.

**Forward-Looking Statements**

This document contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to expectations concerning matters that (a) are not historical facts, (b) predict or forecast future events or results, or (c) embody assumptions that may prove to have been inaccurate, including statements relating to the industry and market trends, and the Company’s financial targets, such as revenue and Adjusted EBITDA. When words such as “believe,” “expect,” “anticipate,” “will,” “outlook” or similar expressions are used, the Company is making forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it cannot give readers any assurance that such expectations will prove correct. These forward-looking statements involve risks, uncertainties and assumptions, including those related to the Company’s relatively limited operating history and the impact of COVID-19 on the Company and its customers and partners, which makes it difficult to evaluate the Company’s business and prospects, the market for programmatic advertising developing slower or differently than the Company’s expectations, the demands and expectations of clients and the ability to attract and retain clients. The actual results may differ materially from those anticipated in the forward-looking statements as a result of numerous factors, many of which are beyond the control of the Company. These are disclosed in the Company’s reports filed from time to time with the Securities and Exchange Commission, including its most recent Form 10-K and any subsequent filings on Forms 10-Q or 8-K, available at [www.sec.gov](http://www.sec.gov). Readers are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this press release. The Company does not intend to update any forward-looking statement contained in this press release to reflect events or circumstances arising after the date hereof.
